PROJECT

Project - 1
- ***Build Interactive QR Code Generator with React.js***
(HTML, CSS, Js,React js)
The main theme centers on empowering users to easily generate QR codes that can be used for a variety of purposes, such as sharing contact information, URLs, or product details. By utilizing React.js, the generator offers a modern and responsive interface, ensuring compatibility across devices and platforms.

Project - 2
- P**uzzle game using python**
The main theme behind developing puzzle game using python is to provide a creative and competitive environment for the players who will use this system.The important part of this game is user can upload their desired images to play.
